

Class of 1972 Memory Book

40th Reunion July 27-29, 2012

Classmates,

Traveling back a few years, you'll recall that our 1972 annual was a game board portraying life's journey through high school. The board was a rectangular progression of sports, drama, journalism, music, debate, art and a myriad of other interests. It is my firm conviction that the "game" chronicled within those pages did not end in 1972. I think it metamorphosed into an adventure which has become an incredible journey of ups, downs and inevitable plateaus. We spent three years in high school pursuing our interests and 40 years later we're still in hot pursuit! By compiling our 40th reunion memory book we may find that others' paths are running parallel to ours, crossing it or traveling some cosmic course way beyond where we've been headed, but won't it be fun finding out?! To help us continue our journeys and expand the "game" to a whole new level, I hope you will fill out the information below and return it to me via email: e2smith@yahoo.com by May 1st. We may be 40 years into this game, but we're far from being done!

"Game on", Ames High!
